

NEW SUMMER SCIENCE PROGRAM FOR HIGH SCHOOL STUDENTS

P.E.E.R.

"Promoting Engagement in science for underrepresented Ethnic and Racial minorities"

SUMMER RESEARCH PROGRAM

JUNE 21, 2021 - JULY 30, 2021

The P.E.E.R Summer Research Program is designed for students who want to immerse themselves into biological research. It emphasizes laboratory discovery, communication of knowledge, and professional growth. A diverse group of 5-6 high school students chosen from existing Kaiser Permanente School of Medicine (KPSOM) pathway programs will participate in the Summer research program. Students in the program will be able to meet and connect with research-focused students from different backgrounds who quickly form a community of motivated scholars at the California Institute of Technology (Caltech) and KPSOM. Applicants will be chosen from competitive process and students of all backgrounds will be selected.

Eligibility

- High School Students
- Interested in Science

Program Requirements

- 6-week (20-hrs/week)
- Research Project
- Poster Presentation

Funding

- \$2000 Summer Stipend
- Up to \$500 Transportation Costs

Application Deadline: June 1, 2021

For Applications/Questions, contact Dr. Derrick Morton (derrick.j.morton@kp.org)
