

Federico Echenique

Division of the Humanities and Social Sciences
California Institute of Technology
Pasadena, CA 91125

Degrees

PhD Economics 1996-2000, [U.C. Berkeley](#). Advisors: [Ilya Segal](#) and [Chris Shannon](#).
Dissertation Title: “Essays in Monotone Comparative Statics and the Theory of Games of Strategic Complementarities.”

Licenciado en Economía 1990-1995, [Universidad de la República](#).

Employment

Allen and Lenabelle Davis Professor of Economics and Social Sciences, July 2016 –
Division of the Humanities and Social Sciences. California Institute of Technology.
(Professor of Economics, 2010 – May 2016; Associate Professor of Economics,
2004-2010; Instructor in Economics, 2002 – 2004.)

Assistant Professor, Departamento de Economía, Facultad de Ciencias Sociales,
Universidad de la República. 2000 – 2002.

Assistant Professor. Departamento de Economía, Universidad Torcuato Di Tella, 2001 –
2002.

Visiting Assistant Professor, Department of Economics, U.C. Berkeley, Spring 2001.

Awards

2017-2018 Pension Research Council/TIAA Institute Partnership Grant. Co-PI with
Kota Saito.

Fellow, Society for the Advancement of Economic Theory, 2016.

NSF Grant SES-1558757, “Choices under uncertainty,” 2016-2019. Co-PI with Kota
Saito.

NSF Grant CNS-1518941, “Networked markets: theory and applications” 2015–2020.
Co-PI with Matt Elliott, John Ledyard, Katrina Ligett, and Adam Wierman.

NSF Grant CCF-1101470 “A revealed preference approach to computational complexity
in economics,” 2011-2013 Co-PI with Adam Wierman.

Morosoli Prize (Uruguay), 2011.

NSF Grant SES-0751980, “Revealed Preference Tests in Individual and Collective Choice,” 2008-2010. Co-PI with Chris Chambers.

Elliot J. Swan Prize, 1998. Department of Economics, UC Berkeley.

1996-2000, Graduate Dean’s Fellowship. UC Berkeley.

1996-1998, Fulbright-Laspau Fellowship.

Book

“Revealed Preference Theory” (joint with Chris Chambers); January, 2016 (Econometric Society Monograph; Cambridge University Press).

Refereed conference proceedings (computer science)

1. “[Learnability and models of decision making under uncertainty](#)” (with Pathikrit Basu). *Proceedings of the 2018 ACM Conference on Economics and Computation* (formerly Electronic Commerce). Pages 53-53 (Ext. abst.)
2. “[The Complexity of Nash Equilibria as Revealed by Data](#)” (with Siddharth Barman, Umang Bhaskar, and Adam Wierman), [arXiv:1311.2655](#) *Proceedings of the 10th WINE Conference, 2014*.
3. “[The empirical implications of privacy-aware choice](#)” (with Rachel Cummings and Adam Wierman). [arXiv:1401.0336](#) *Proceedings of the 15th ACM Conference on Electronic Commerce, 2014*. (Extended abstract)
4. “[The Empirical Implications of Rank in Bimatrix Games](#)” (joint with Siddharth Barman, Umang Bhaskar, and Adam Wierman) *Proceedings of the 14th ACM Conference on Electronic Commerce, 2013*.
5. “[Finding a Walrasian Equilibrium is Easy for a Fixed Number of Agents](#)” joint with Adam Weirman. *Proceedings of the 13th ACM Conference on Electronic Commerce, 2012*.
6. “[A Revealed Preference Approach to Computational Complexity in Economics](#),” joint with Daniel Golovin and Adam Weirman. *Proceedings of the 12th ACM Conference on Electronic Commerce, 2011*.

Journal publications

7. “[General Luce Model](#)” (joint with Kota Saito) Forthcoming, *Economic Theory*.

8. “On multiple discount rates” (joint with Chris Chambers) *Econometrica*. Volume 86, No. 4 July 2018 pp. 1325–1346.
9. “The Perception Adjusted Luce Model” (joint with Kota Saito and Gerelt Tserenjigmid), *Mathematical Social Sciences*. Volume 93. May 2018, pp. 67–76.
10. “On path independent stochastic choice” (joint with David Ahn and Kota Saito) *Theoretical Economics*. Volume 13(1); pages 61–86, 2018
11. “A characterization of combinatorial demand” (joint with Chris Chambers). *Mathematics of Operations Research*. Volume 43(1); pages 222-227, 2018.
12. “Response time and utility” (joint with Kota Saito) *Journal of Economic Behavior and Organization* Volume 139, July 2017, Pages 49-59.
13. “General Revealed Preference Theory” (joint with Chris Chambers and Eran Shmaya). *Theoretical Economics*. 12 (2017), 493–511
14. “Testing theories of financial decision making ” (joint with Chris Chambers and Kota Saito) *Proceedings of the National Academy of Sciences*, April 2016, Volume 114, number 15, pages 4003-4008.
