Hello Windsurfers,

The Caltech Surf and Windsurf Club is hosting beginner windsurfing lessons in Alamitos Bay in Long Beach this Saturday, May 19. This is an all day trip, meeting at the Caltech Clubhouse early morning on Saturday and returning around 8:00 p.m. that evening. If you have your own car, you can come and go according to your schedule.

The cost for the trip is $10, which includes equipment, instruction, and wetsuits. In addition, there is also gas money for those carpooling. You are responsible for bringing your own food and water.

If you are interested in going please email me (Erika.Podest@jpl.nasa.gov) the following details:
- number of people in your party
- will you need to carpool?
- if you are driving, would you be able to take any boards?

Within the next day I'll send a more detailed email to those interested.

Erika
