

MATH 2A PRACTICAL MIDTERM

This exam should be completed in one sitting within 3 hours, and it must be turned in by 10 AM on October 29, 2010 (Friday). Use the slot marked Ma 2a Prac near the Math office in Sloan 255. You may use your text, or your own notes from class, but nothing else and no one else. Give details; part of what one must learn is the art of describing logical reasoning precisely and with no gaps.
